# Colombo Design: a family company.

maniglie con cura

Proprio come una famiglia accudisce i suoi membri con amore e dedizione, così Colombo Design cura i suoi prodotti, con gli stessi valori e le medesime tradizioni, per fare di ogni ambiente una casa, senza scendere mai a compromessi sull'autenticità. Un manifesto contemporaneo dell'essere creativi, curiosi e sperimentali.

handles with care

Just like a family that handles its members with love and care, Colombo Design handles its family of productions with the same values and traditions to make of any place a home, never accepting any compromise to quality and function, individuality and authenticity. Bonding heritage with creativity, curiosity and innovation.

# Colombo Design: our mission.

la qualità sensibile

**Intraprendere** un'impresa nel terzo millennio.

**Infondere** entusiasmo ai collaboratori, convinti che il fattore umano sia condizione essenziale al progresso aziendale.

**Produrre** secondo criteri di eccellenza nelle varie fasi di lavorazione per offrire prodotti garantiti.

**Rinnovare** costantemente impianti e procedure per precedere i rischi dell'obsolescenza. Questi i requisiti di Colombo Design; leader mondiale nella produzione di maniglie, presente in 93 paesi nel mondo attraverso una fitta rete di agenti e distributori. Una realtà solida, nata nel 1991, che si estende su una superficie di 100.000 mq, di cui 25.000 mq coperti, a Terno d'Isola in provincia di Bergamo.

discerning quality

**Creating** a business in the third millenium;

**Motivating** staff by recognising that human resources are essential to company development;

**Achieving** manufacturing excellence at every stage of production so that products may be guaranteed;

**Continually** updating machinery and manufacturing procedures to maintain quality levels in harmony with our environment. These are core principles of Colombo Design, world leader in the production of handles, present in 93 countries worldwide through an extensive network of agents and distributors. A solid reality, founded in 1991, based at Terno d'Isola, in the province of Bergamo, with an area of 100,000 square meters, of which 25,000 sm are covered.

Our environmental  
approach.

**Lo sviluppo è sostenibile se soddisfa i bisogni delle generazioni presenti senza compromettere le possibilità per le generazioni future di soddisfare i propri bisogni.**

*Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs.*

*(Brundtland Report, United Nations, 1987)*

## E' TEMPO DI GREEN MADE IT'S GREEN MADE TIME

Green Made significa pensare, progettare e produrre in armonia con l'ambiente.

**Green Made: perché** In una economia globale assume un ruolo sempre più importante la protezione delle risorse disponibili ed in particolare lo studio degli aspetti ambientali legati alle diverse attività produttive. L'aumento dei consumi delle risorse non rinnovabili (i minerali ed i metalli come pure i combustibili fossili), dovuto alla costante crescita della popolazione mondiale, impone standards di produzione che privilegino la conservazione delle risorse disponibili.

I nostri processi produttivi sono frutto di una globale attenzione alla tutela dell'ambiente. La gestione accurata di questi processi ha portato, tra le altre cose, all'ottenimento della certificazione UNI EN ISO 14001 «Sistema di gestione ambientale certificato».

**Green Made: il valore** Ogni singola fase di progettazione e produzione è attentamente analizzata sotto il profilo dell'impatto ambientale ed ogni scelta successiva dettata dal raggiungimento degli obiettivi di eco compatibilità. Così durante la produzione vera e propria, saranno le più avanzate tecnologie appositamente sviluppate ed i più severi controlli, effettuati dal personale più qualificato, a garantire Green Made by Colombo Design: un prodotto nato con il pensiero costantemente rivolto all'ambiente.

Green made means thinking, developing and manufacturing in harmony with our environment.

**Green Made: why** Protecting our resources is more and more important in a global economy, in particular paying attention to reflections of manufacturing onto the environment. Increase of consumptions of non-renewable resources (minerals, metals and fossil combustibles) due to increase of population, imposes manufacturing standards privileging conservation of the available resources and raw materials.

Our production processes are the result of a total attention to environmental protection.

By the accurate management of these processes we obtained the UNI EN ISO 14001 certification «Certified environmental management system».

**Green Made: values** Each design and production step is carefully checked with regards to the environmental impact and each following decision is taken if our eco-compatibility objectives are fully reached. This means that when we manufacture our products, the Green Made concept by Colombo Design will be assured by the advanced technologies and very strict controls carried out by a very highly qualified personnel, generating a product conceived constantly thinking of the environment.

**Sistema di gestione per la qualità certificato**  
**Certified quality management system**  
**UNI EN ISO 9001:2008**

Questa certificazione è valida per il seguente campo applicativo:  
Progettazione e fabbricazione di maniglie, complementi per arredamento e di accessori per l'arredo del bagno in materiali non ferrosi.

This certification is valid for the following application field:  
Design and manufacture of handles, furniture co-ordinated accessories and bathroom furniture accessories in non ferrous materials.

**Sistema di gestione ambientale certificato**  
**Certified environmental management system**  
**UNI EN ISO 14001:2004**

Questa certificazione è valida per il seguente campo applicativo:  
Progettazione e fabbricazione di maniglie e complementi per arredamento in materiale non ferroso, accessori per l'arredo del bagno mediante le fasi di: pressofusione, burattatura, pulitura, galvanica, verniciatura, assemblaggio, confezionamento ed immagazzinamento.

This certification is valid for the following application field:  
Design and manufacture of non-ferrous handles and coordinated furniture accessories, bathroom furniture accessories by: die-casting, tumble finishing, polishing, electroplating, varnishing, assembling, packing and storing.

**Nuova certificazione europea per le maniglie**  
**New European certification for door furniture**  
**UNI EN 1906:2012**

La norma Europea UNI EN 1906:2012 stabilisce requisiti e metodi di prova per maniglie e pomoli. Colombo Design ha conseguito, per tutti i suoi modelli, lusinghieri risultati tra i quali il più significativo è il "Grado 4" per la categoria d'uso: sinonimo di assoluta qualità e resistenza.

The European standard UNI EN 1906:2012 establishes requirements and test methods for lever handles and knobs. Colombo Design achieved, for all of its models, excellent results between which the most significant is the "Grade 4" for the category of use: synonym of absolute quality and resistance.

# Colombo Design warranties

## HPS SISTEMA DI ALTA PROTEZIONE HPS HIGH PROTECTION SYSTEM

**TRATTAMENTO DI PROTEZIONE GARANTITO 30 ANNI** Quello utilizzato da Colombo Design è un processo di finitura mutuato dal settore dell'utensileria, in cui caratteristiche fisiche e meccaniche sono studiate per garantire prestazioni eccezionali di resistenza all'usura meccanica e al decadimento dovuto ad agenti ambientali e chimici, in cui il processo è stato messo a punto per garantire anche un notevole aspetto estetico, trasparenza e lucentezza fanno risaltare il design del prodotto. Tutti i prodotti trattati con il processo PVD, vengono preventivamente rivestiti con strati di rame, nichel e cromo per garantire un perfetto isolamento della materia prima sottostante. Trattamento con la garanzia di "30 anni" sulle finiture **Zirconium Gold** e **Zirconium Stainless-Steel**.

**PRESTAZIONI RIVESTIMENTO** I prodotti trattati con il processo PVD, garantiscono prestazioni di lunga durata. L'utilizzo di questi prodotti è particolarmente indicato nel caso di ambiente corrosivo, come aree marine ricche di salsedine o in zone soggette a piogge acide. L'utilizzo in pieno sole e le escursioni di temperatura non pregiudicano l'estetica del prodotto con viraggi di tonalità del colore. La durezza del rivestimento e il basso coefficiente di attrito superficiale garantiscono un'ottima resistenza ai graffi dovuti, per esempio, all'utilizzo di anelli. Eventuali ammaccature provocate da urti o colpi possono intaccare l'integrità e provocare il decadimento delle prestazioni del rivestimento.

**TREATMENT PROTECTION GUARANTEED 30 YEARS** Colombo Design uses a finishing process borrowed from the tools industry, where physical and mechanic features have to guarantee a very high performance as far as mechanic wear and decay due to environmental and chemical agents are concerned. This finishing process also guarantees a high level of design where transparency and brightness allow the product to show up. All PVD-treated products with High Protection System finishing are previously coated with layers of copper, nickel and chrome in order to guarantee the perfect insulation of the underlying raw material. Treatment with warranty of "30 years" on **Zirconium Gold** and **Zirconium Stainless-Steel** finishing.

**COATING PERFORMANCE** All PVD-treated products with High Protection System finishing guarantee better performance than any other type of coating, either galvanic or acquer. The use of these products is strongly recommended in such places as high-salinity marine areas or areas subject to acid rains. The use in bright sunshine and temperature ranges does not cause color changes. The hardness of the coating and the low rate of surface friction ensure a very good resistance to scratches due to the use of rings (for example). Any dents due by hits or impact can spoil the surface and affect the coating performance.

## GARANZIA 10 ANNI GUARANTEED 10 YEARS

**TRATTAMENTO DI PROTEZIONE GARANTITO 10 ANNI** La lunga esperienza maturata nel settore dei trattamenti galvanici, unita alla scelta di prestare particolare attenzione alla qualità nei processi produttivi, consentono a Colombo Design di garantire le finiture dei suoi prodotti oltre la normale copertura prevista dalla legge. E' quindi con particolare orgoglio che offriamo ai nostri utenti la garanzia di "10 anni" sulle finiture **Cromo, Cromat, Oroplus, Vintage e Vintage Mat**. Questo impegno di durata nel tempo del prodotto è la nostra forte ed alternativa risposta al consumismo «usa e getta», sinonimo di spreco ambientale e nemico della memoria collettiva, irrinunciabile valore di tutte le società. Leggere tolleranze cromatiche, frutto del sofisticato processo PVD, nelle finiture **Vintage e Vintage Mat** sono da considerarsi normali. Per un utilizzo ottimale del prodotto, ed ottemperare alle regole della garanzia: evitare l'impiego di sostanze solventi, abrasivi, alcool; rimuovere le eventuali tracce di sporco e polvere solo con un panno inumidito in acqua tiepida.

**TREATMENT PROTECTION GUARANTEED 10 YEARS** The long experience in the field of galvanic treatments, combined with the choice to pay special attention to the quality in production processes, enable Colombo Design to ensure the finishes of its products beyond the normal warranty provided by law. It is therefore with great pleasure, we offer to our end-users the warranty of "10 years" on **Chrome, Cromat, Oroplus, Vintage and Vintage Mat** finishing. This commitment of product durability is our strong and alternative response to consumerism «disposable», synonymous with environmental waste and enemy of collective memory, an essential value of all societies. Due to the high sophisticated PVD process slight color tolerances in the **Vintage and Vintage Mat** finishes are to be considered normal. For maximum performance, kindly comply with the rules of warranty: do not use solvents, abrasives or alcohol; remove any traces of dirt and dust only with just a cloth damped in water.

## ANTI-BACTERIAL

**TRATTAMENTO ANTIBATTERICO** Colombo Design ha reso disponibile alla propria clientela un nuovo trattamento (fornito su richiesta) che rende le superfici dei suoi prodotti repellenti agli agenti batterici, alle muffe, ai microorganismi, con un forte beneficio in termini di resistenza ai graffi ed all'usura, tipici degli usi nelle comunità. Questo processo consiste nell'applicazione di una particolare vernice lucida, basata su materiali nano tecnologici avanzati, che aderisce sulla superficie finita dell'articolo.

La sostanza utilizzata, prodotta da una primaria azienda italiana, è conforme ai più restrittivi standard per l'uso in ambito pubblico ed è corredata da certificazioni internazionali che attestano l'efficacia antibatterica del prodotto. Per un utilizzo ottimale, ed ottemperare alle regole della garanzia:

- . Evitare l'impiego di sostanze solventi, abrasivi, alcool
- . Rimuovere le eventuali tracce di sporco e polvere solo con un panno inumidito in acqua tiepida

**ANTI-BACTERIAL TREATMENT** Colombo Design has introduced a new treatment (available on request) that makes the surfaces of our products repellent to bacterial agents, to molds, or micro-organisms, and having also a strong benefit in terms of resistance to scratches and abrasion that are characteristic of uses in social places. This process consists in applying a particular gloss paint based on advanced nano-technological materials that adhere on the finished surface of the article.

The substance used, produced by a leading Italian company, complies with the most restrictive standard for use in the public areas and it is accompanied by international certifications that attest the efficacy of the antibacterial product. For maximum performance:

- . Do not use solvents, abrasives or alcohol;
- . Remove dirt and dust only with a cloth damped in water

SS

Fissaggio a muro e vetro ottenuto con uno speciale nastro biadesivo in schiuma acrilica ad alte prestazioni (3M™ VHB™).

Attenzione: Si sconsiglia l'applicazione dei pezzi su superfici particolarmente ruvide o poco compatte, così come su intonaci o muri grezzi.

Wall and glass fixing with a special high performance double sided acrylic foam tape (3M™ VHB™).

Attention: we do not recommend the application of the pieces on surfaces particularly rough, as well as on painted walls.

Concept and graphic design  
**Colombo Design**

Printed in Italy  
**10/13**

Colombo Design si riserva di apportare ai propri prodotti ogni modifica estetica e tecnica che a suo insindacabile giudizio ritenga necessaria.

Il presente catalogo è tutelato dalla legge sui diritti di autore di esso è quindi proibita ogni riproduzione, totale o anche parziale.

Il listino prezzi può avere frequenze di aggiornamento superiori al catalogo generale, costituisce quindi lo strumento di consultazione più aggiornato.

Le textures ed i colori dei materiali e delle finiture hanno valore indicativo in quanto soggetti alle tolleranze dei processi di stampa.

Le misure indicate sono espresse, se non specificato diversamente, in millimetri.

Colombo Design reserves the right to modify parts of its collection range whenever necessary without previous notice.

This catalogue is protected by the Italian copyright laws. No part of this catalogue may be reproduced in any form or by any means

The price-list has a printing frequency higher than the general catalogue, therefore it is the most up-dated consulting tool.

The textures and colours of materials and finishes are not binding as they depend on printing colour tolerances.

All measures mentioned herein are stated in millimeters, if not differently specified.
